World Courier
depot guide

Our reputation as the most trusted specialty logistics company extends beyond safe and timely transport solutions. At our GxP-compliant depots, we protect your investments at every stage of the product lifecycle.

Our clinical trial and commercial storage solutions can help you expand your reach by giving you access to some of the most demanding regulatory environments across the globe.

Clinical depot

Fully GxP-compliant facilities offering storage and distribution as well as an expanded range of clinical trial-specific services, ensuring all your clinical trial supply chain needs are met according to the highest-quality standards.

Commercial warehouse

Our facilities offer expanded and integrated logistics solutions, delivering tailored services that increase supply chain efficiency and effectiveness in the commercialization journey.

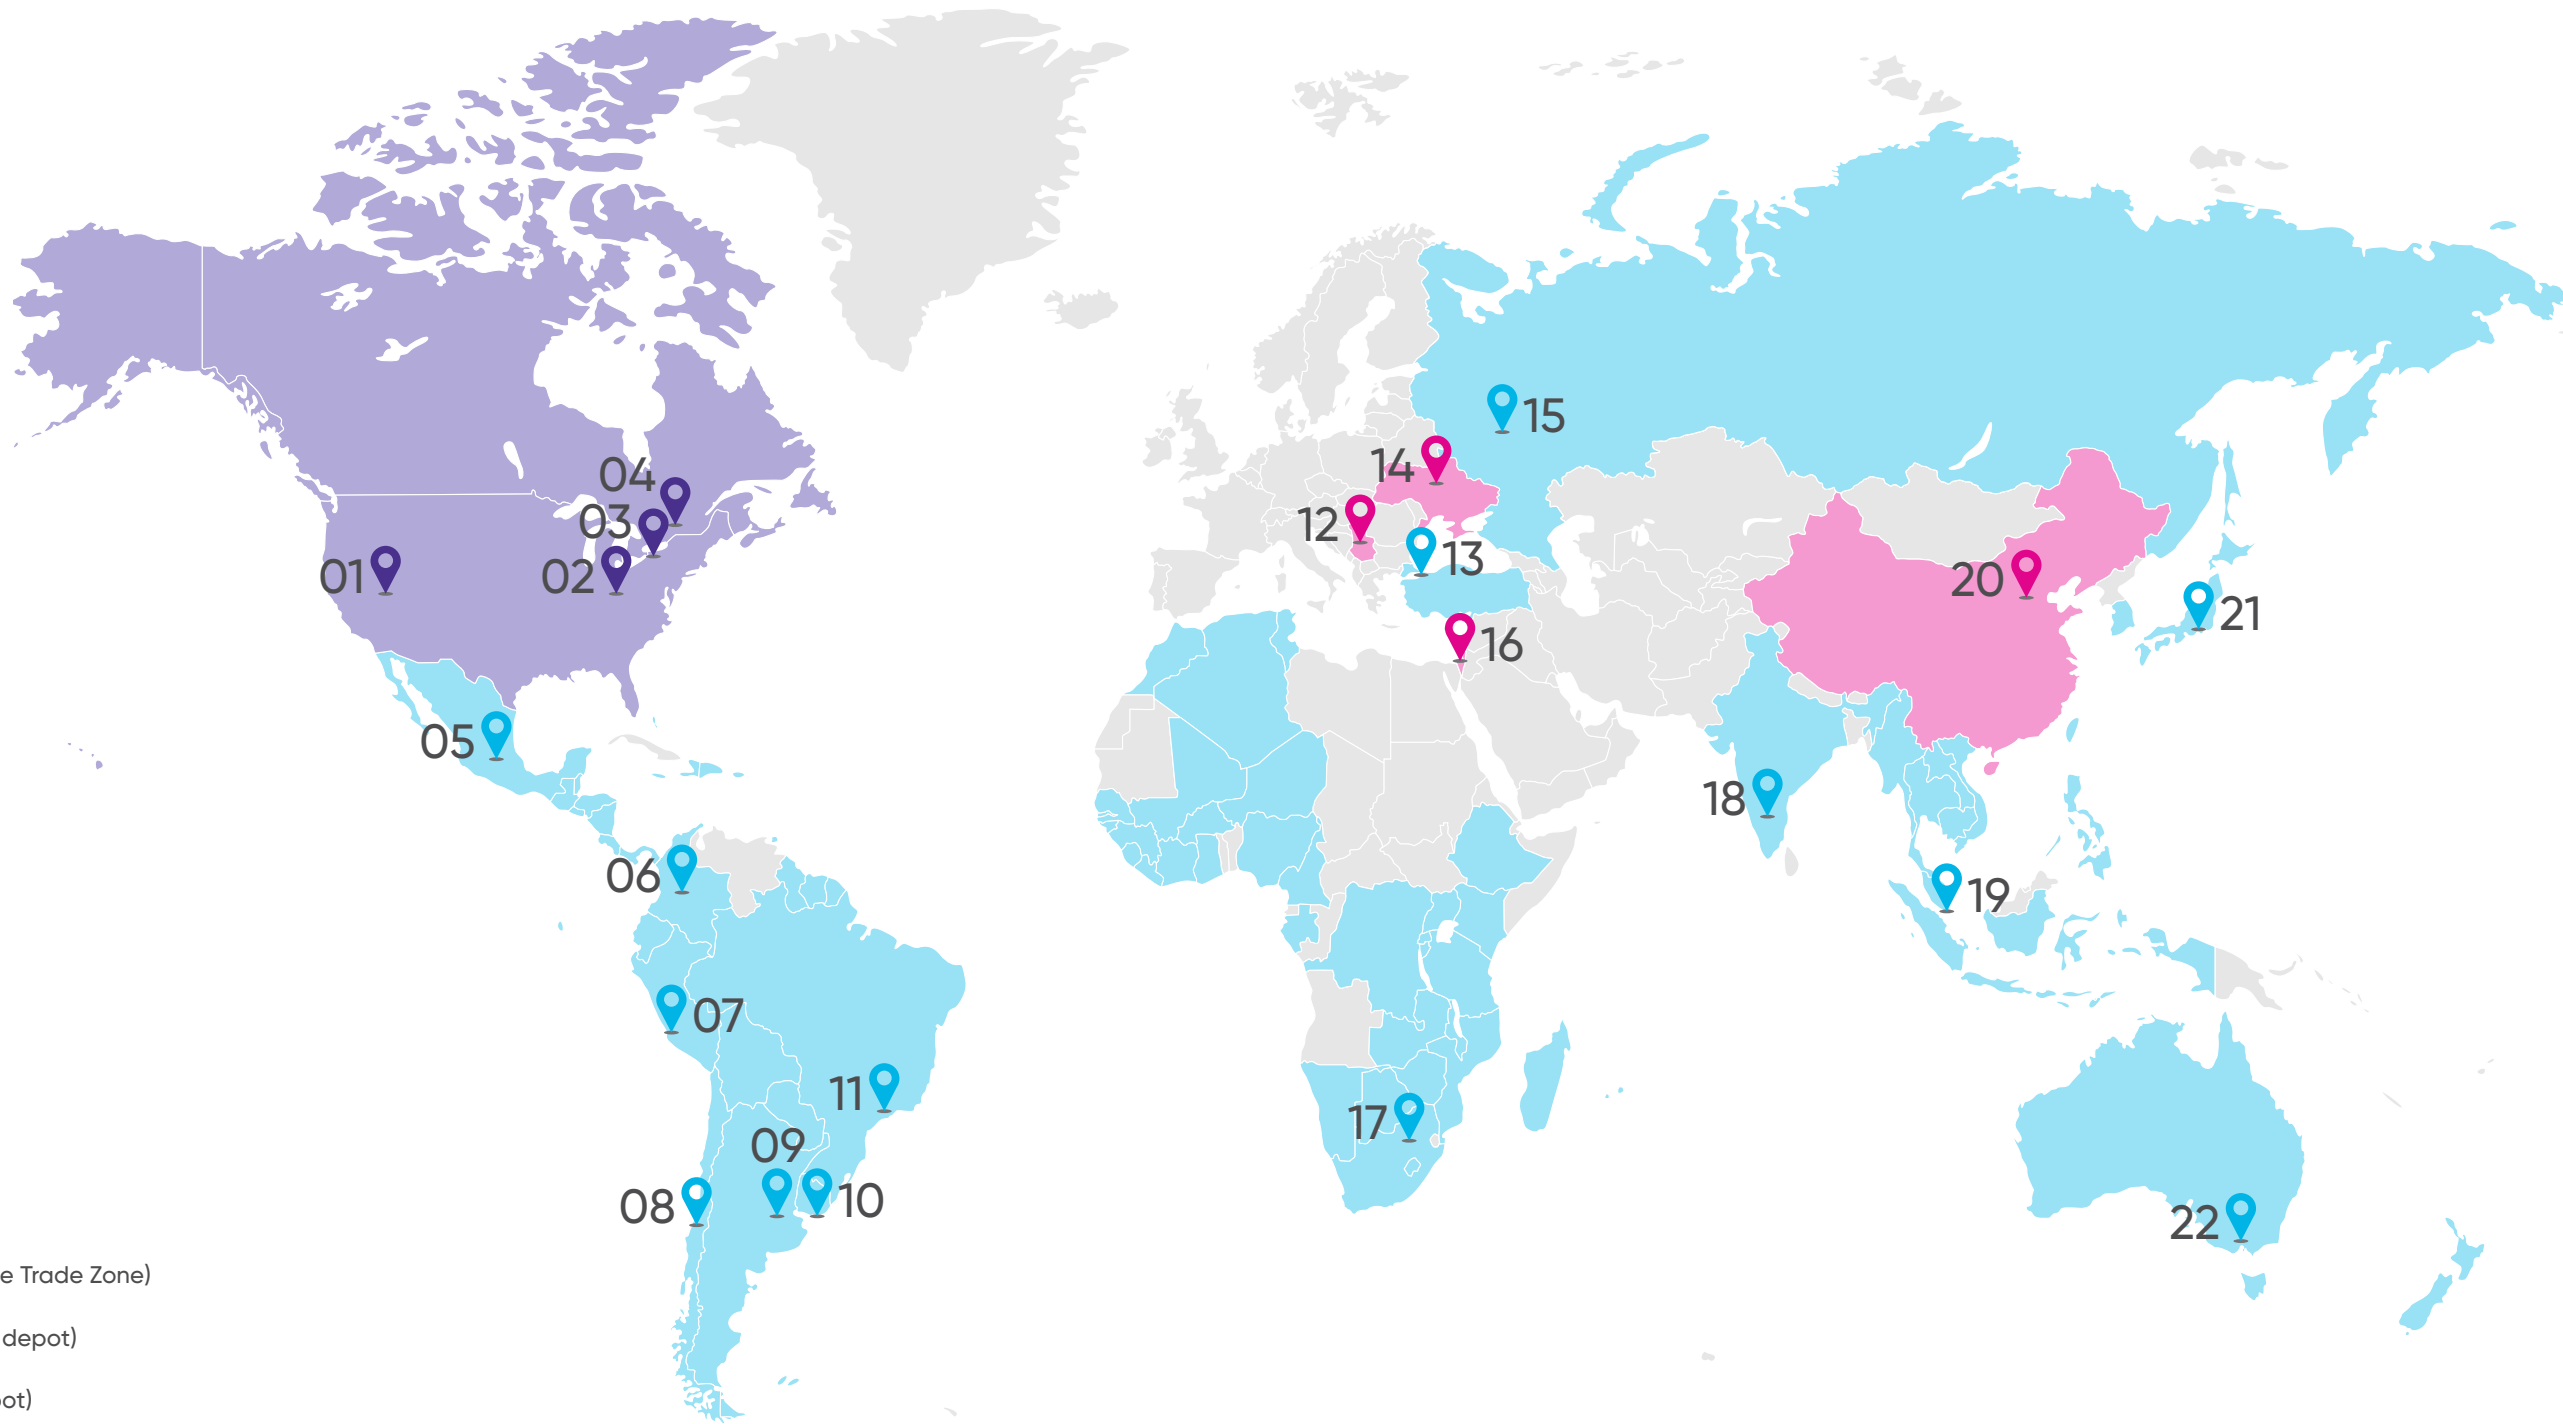

With proven processes for product safety — including redundant security measures and comprehensive SOPs — our fully GxP-compliant facilities are purpose-built. The online customer portal also provides you with real-time visibility of your inventory 24/7/365.

Discover how you can optimize your supply chains using our depot solutions.
