

Comparator drug sourcing

A single source for clinical trial supply logistics services

When developing a new product, manufacturers are required to focus on comparing their new drug to the commercially available product alternatives. We simplify the process and reduce barriers for acquiring generic and branded "comparator" drugs for testing during clinical trials or Bio equivalence studies.

A simplified process with the

Best access for commercial pharmaceuticals—Leveraging an established sourcing network and our trusted industry relationships, we obtain comparator products directly from drug companies, reducing the risk of counterfeit product. To further ensure product integrity, products are transported in temperature-controlled environments with active monitoring, when required.

Elevated due diligence—With our expansive reach, scale, and industry leadership position, we leverage our proven logistics history to simplify comparator drug access across the U.S. World Courier buys all comparator drugs directly from the manufacturer, or from their exclusive distributor. This ensures a closed loop from the manufacturer to our comparator product client. Currently, we offer comparator drug sourcing services in the U.S. only.

How we work

Service

Our dedicated team provides a fast, reliable response time to quote requests. Product availability is often times confirmed within 48 hours.

Fair price

We buy comparator drugs through AmerisourceBergen's established sourcing network, ensuring you receive fair, transparent pricing.

White glove delivery

We can provide transportation through World Courier or use your designated courier—the choice is yours.

Ensuring product integrity and patient safety

Acquiring approved branded or generic drugs, can be a time-consuming, costly, and sometimes difficult process. World Courier Comparator Drug Sourcing solution is tailored to meet manufacturers' needs for product integrity, patient safety, and fair pricing.

Optimal pricing and quick answers

Speed and cost are two important factors in comparator drug sourcing. We are committed to answering all requests for comparator drugs within 48 hours. Because we buy product directly from the drug originator, we are able to provide optimal and transparent pricing.

Operational excellence overcomes barriers

Our dedicated and experienced team is focused on doing everything possible to secure the comparator drugs you need. We provide an integrated, more efficient approach to supply chain management for sourcing comparator drugs that saves time and reduces cost.

Elevated quality assurance ensures product integrity

Because of our long-standing and trusted relationships, we are able to acquire comparator drugs directly from the manufacturer and wholesalers. Direct sourcing ensures the integrity and product safety of the comparator drug.
